

## Roof *Airtight on the inside*

### Angular penetration

- Cut Corvum to length: add about 3 cm at each end
- Bond tightly into corner for joists (with folded edge against joist)
- Remove the backing strip
- Unfold, press on

- Cut into the excess, bisecting the angle
- **Start cut just short of the corner of the joist!**
- Repeat on each side of the joist

#### How it should look:

- Joist permanently airtightly sealed with Corvum 30 / 30

**Corvum® 30/30**
